

Sakshi Chavan

BSc Computer Science Student

I am a BSc Computer Science student (3rd year) with a keen interest in learning programming and web development. Currently improving my skills in Java, Python, HTML, and CSS while working on small projects. Looking for an internship opportunity to gain practical experience and enhance my technical skill.

PERSONAL PROJECTS

FIRE FIGHTING ROBOT 🚒

- Engineered a microcontroller-based robot capable of detecting fire using flame sensors and automatically activating a water-spray system to extinguish it. Successfully tested in controlled environments to demonstrate reliable fire detection and response.

Quiz Game 🎮

- Designed and developed a console-based quiz game using Python. Included features like timed questions, score tracking, and topic selection.
